

INSTRUCTION MANUAL

SET-UP

1. Set up the Zodi i.hut by following the directions for the Zodi i.hut. Always push – never pull – poles into and out of loops taking care to prevent pole sections from separating. Never allow poles to “snap” straight. Do not bend poles beyond a 6’ radius. Read all warnings before assembly.
2. Attach your Zodi i.hut Canopy & Cover to the Zodi i.hut by threading the two posts on the i.hut canopy through one of the i.hut corner “O” ring near the top of the i.hut. Note: the D-ring found on the fiberglass Pole is not the Ring. The “O” ring is attached to the fabric of the i.hut and is near each pole and secured to the i.hut with a small bungee strap.
3. Once one side is attached, pull fabric of the i.hut canopy and cover with the opposite corner than what was just attached to the i.hut over the top of the i.hut. Then secure the i.hut canopy to the i.hut “O” ring by threading the i.hut canopy posts through the i.hut “O” ring.
4. Continue to next pole and thread the next i.hut canopy and cover posts through the corresponding loop on the i.hut near the fiberglass Pole.
5. Finally, do the same with the last pole by threading the next i.hut canopy and cover posts through the corresponding loop on the last i.hut fiberglass Pole.

REMOVING I.HUT CANOPY FROM I.HUT

To remove the i.hut canopy, remove the i.hut canopy posts from the i.hut by unthreading the i.hut canopy posts from the i.hut “O” ring canopy attachments. Fold the i.hut canopy and cover when completely dry and store with Zodi i.hut.

TECH SUPPORT

If you are having a problem with your Zodi™ i.hut canopy and cover or i.hut please do not return it to the store. Confirm you have all items as indicated in the instructions for the i.hut and attempt to set up the i.hut again.

If still having challenges, please call Zodi™ at 800-589-2849. Most problems can be corrected over the phone.
